

CareSync (An Online Appointment Booking App for Clinics)

PART I. Consent Form

This study is about the usability evaluation of the CareSync system, a healthcare application designed to help users find clinic, book medical appointments, and receive a queue number. You are invited to participate because your feedback is very important in checking if the system is user friendly and easy to use. The goal of this study is to evaluate how well the system works and find ways to improve it based on the user experience while using the application.

If you agree to participate, you will be asked to use the CareSync prototype and answer a short survey questionnaire using the System Usability Scale (SUS). This will help us to understand your experience while using the system. The whole process will take about 10 to 15 minutes only.

Your participation in this study is voluntary. This means you are free to participate or not, and you can also stop at any time without any problem. All the information you provided will be kept private and confidential. Your identity will not be shown or shared with others and also your answers will only be used for academic purposes. There will be no risk in participating in our survey except for the small amount of time you will spend. Your feedback will help us to improve the CareSync system and make it more useful for the future users.

MICHAEL B. AMATA

Course Instructor, Computational Sciences Department

By signing below, you confirm that you understand the information given and that you voluntarily agree to participate in this study.

Name:_____

Signature:_____

Date:_____

Group Leader: Jeet P. Kumar

Email: jpkumar689.pbox@parsu.edu.ph

PART II. Demographic Profile

Age: _____

Gender: ☐ Male ☐ Female

Course /Program: _____

Year level: _____

Experience with similar system: ☐ Yes ☐ No

Frequency of Technology use: ☐ Daily ☐ Weekly ☐ Never

PART III. SYSTEM USABILITY SCALE (SUS)

The following questionnaire measures the usability of the system CareSync based on your experience. Please indicate your level of agreement using the scale below.

Instructions: Please read each question and check (✓) one number that shows your level of agreement based on your experience with the system CareSync.

1 = Strongly Disagree, 2 = Disagree, 3 = Neutral, 4 = Agree, 5 = Strongly Agree

Partido State University
College of Engineering and Computational Sciences
Computational Sciences Department

	Questions	1 Strongly Disagree	2 Disagree	3 Neutral	4 Agree	5 Strongly Agree
1.	I think that I would like to use this system frequently.					
2.	I found the system unnecessarily complex.					
3.	I thought the system was easy to use.					
4.	I think that I would need the support of a technical person to use this system.					
5.	I found the various functions in this system were well integrated.					
6.	I thought there was too much inconsistency in this system.					
7.	I would imagine that most people would learn to use this system very quickly.					
8.	I found the system very cumbersome to use.					
9.	I felt very confident using the system.					
10.	I needed to learn a lot of things before I could get going with this system.					

PART IV. OPEN-ENDED QUESTIONS

11. What did you like about the system?

12. What improvements can you suggest?
